

# iDye for Natural Fabrics

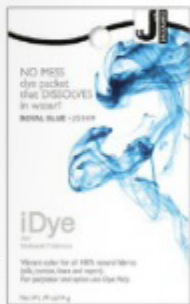

Dyeing has never been easier than with iDye from Jacquard! iDye comes in a dissolvable packet, so there are never any messy powders to handle: simply dissolve the packet in the dye bath or drop it in the washer, then add the fabric. iDye is a hot water dye that produces brilliant colors on any natural fabric and may be used on the stovetop or in the washing machine.

## FABRIC/FIBER/SURFACES

cotton, linen, canvas, silk, rayon and more

**SIZES** 0.49 oz/14 grams (Item JID1)  
1 lb/0.45 kg (Item JID3)

# iDye Poly

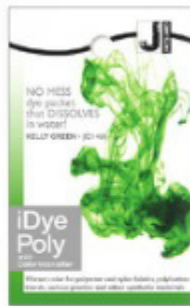

iDye Poly is for synthetic fibers such as polyester and nylon. It will color almost anything synthetic, including plastics and acrylics, buttons, frisbee discs, 3D printed objects, toys, dolls, wigs, urethane coatings and more! The dye comes in a dissolvable packet, so there are never any messy powders to handle: simply drop the packet in a pot of water, add your fabric or objects and bring to a boil!

## FABRIC/FIBER/SURFACES

polyester, nylon, poly/cotton blends, plastics, acrylic and more

**SIZES** 0.49 oz/14 grams (Item JID1)  
includes Color Intensifier  
1 lb/0.45 kg (Item JID3)

Scan QR code for a video and more information.

For blended fabrics that contain both synthetic and natural fibers, use iDye for Natural Fabrics with the corresponding iDye Poly color. **AT THE SAME TIME!** Or try pairing two different colors for more interesting two-tone heather effects.

iDye Poly may also be used for sublimation transfer techniques and to dye the polyester threads that are used to sew many commercially manufactured garments.

402 Ecru	409 Pink	416 Purple	424 Chestnut
