Safety Data Sheets

Cobalt green light Pg50

Product code: PS-CO0030 Department: cobalt dry pigments

C.A.S.: 68186-85-6

Section: 1 Identification

Product Pigment Cobalt Green Light Pg50

Color index Pigment green 50, CI Constitution #77377 * CPMA # 13-31-3 Substance use Colorant, artists paint, coatings coloring, inks and plastics.

Company supplying the SDS: KAMA pigments

Adress: 7442 St-Hubert Montréal Québec, H2R 2N3

Phone: 514 272 2173 fax: 514 948 5253 Email: info@kamapigment.com

Section: 2 Hazard Identification

Physical hazards Not classified. Health hazards Not classified. Environmental hazards Not classified. OSHA defined hazards Not classified.

HGS Label Elements

Signal Word

GHS Classification

The product does not require a hazard warning label in accordance with GHS criteria.

Hazard statements

Precautionary Statements

P261 - Avoid breathing dust/fume/gas/mist/ vapors/spray.

P281 – Use personal protective equipment as required.

P391 - Collect spillage.

P403 + 233 - Store in a well-ventilated place. Keep container tightly closed."

Section: 3 Composition / Information on Ingredients

CHEMICAL NAME COMMON NAME AND SYNONYMS **CAS NUMBER** CI Pigment Green 50 68186-85-6 99-100 Cobalt titanate green spinel

> CI Constitution #77377 CPMA # 13-31-3

This product is the result of high temperature calcination of the component substances. Due to its Composition comments

unique crystalline structure the properties of this finished pigment do not necessarily reflect the

properties of the component metals or oxides.

Section: 4 First Aid Measures

Inhalation Remove to fresh air. If the affected person is not breathing, apply artificial

respiration. If breathing is difficult, give oxygen. Call a physician if symptoms

develop or persist.

Skin contact Wash the skin immediately with soap and water. Get medical attention if irritation

develops or persists.

Eye contact Hold eyelids apart and flush eyes with plenty of water for at least 15 minutes. Get

medical attention if irritation develops or persists.

Ingestion Never give anything by mouth to an unconscious person. If swallowed, do NOT

induce vomiting. Give several glasses of water to dilute contents of stomach and

call a physician.

Most important symptoms/effects, acute and delayed

Contact with eyes may cause irritation. Inhalation of dusts may cause respiratory

irritation. Contact with skin may cause irritation.

General information If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. Where there is a potential for eye

exposure to this substance, an eye wash fountain should be provided within the

immediate work area for emergency use.

Section: 5 Fire Fighting Measures

Suitable extinguishing media

Specific hazards arising from the chemical

Special protective equipment/precautions for firefighters

Fire fighting equipment/instructions

General fire hazards

Use extinguishing agent suitable for type of surrounding fire.

None known.

Use protective equipment appropriate for surrounding materials.

Not a fire hazard.

This product is not flammable.

Section: 6 Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Wear appropriate protective equipment and clothing during clean-up.

Avoid inhalation of dust from the spilled material.

Methods/materials for containment/cleaning up

Avoid dust formation. Following product recovery, flush area with

water. Collect powder using special dust vacuum cleaner with particle

filter or carefully sweep into closed container.

Environmental precautions Do not discharge into drains, water courses or onto the ground.

Section: 7 Handling And Storage

Precautions for safe handling

Conditions for safe storage, including any incompatibilities

Provide appropriate exhaust ventilation at machinery and at places where dust can be generated. Keep formation of airborne dusts to a minimum. When using, do not eat, drink or smoke. Wash hands thoroughly after handling.

Store in closed original container in a dry place. Room temperature - normal conditions. Use care in handling/storage. Keep in properly labelled containers.

Section: 8 Exposure Control/Personal Protection

Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

METALS	TYPE	VALUE	PERCENT	FORM
Cobalt metal, dust and fumes	PEL	0.1 mg/m3	24-30%	(as Co) Dust and fume.
Chromium (III) and compounds	PEL	1 mg/m3	43-50%	(as Cr)
Zinc compounds	none		3 - 10%	(as Zn)

S. ACGIH Threshold Limit Values

METALS	TYPE	VALUE	PERCENT	FORM
Cobalt metal, dust and fumes	TWA	0.02 mg/m3	24-30%	(as Co)
Chromium (III) and compounds	TWA	0.5 mg/m3	43-50%	(as Cr)
Zinc compounds	none		3 - 10%	(as Zn)

US. NIOSH: Pocket Guide to Chemical Hazards

METALS TYPE VALUE **PERCENT FORM** Cobalt metal, dust and fumes TWA 0.05 mg/m324-30% (as Co) Dust and fume. Chromium (III) and compounds **TWA** 0.5 mg/m3 43-50% (as Cr)

Biological limit values

ACGIH Biological Exposure Indices

CONSTITUENTS	VALUE	FORM	DETERMINANT	SPECIMEN
Cobalt metal, dust and fumes	15 μg /I (as Co)	Co	Cobalt	Urine
	1 μg /l (as Co)	Co	Cobalt	Blood

Appropriate engineering controls

Use process enclosures, local exhaust ventilation, or other engineering controls to control

airborne levels below recommended exposure limits.

Individual protection measures, such as personal protective equipment Eye/face protection Safety glasses with side-shields.

Skin protection

Hand protection Rubber or plastic gloves. PVC disposable gloves. Use impervious gloves. Normal work clothing (long sleeved shirts and long pants) is recommended. Other

If engineering controls do not maintain airborne concentrations below recommended exposure Respiratory protection

limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever work place conditions warrant a respirator's use. If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection. MSHA/NIOSH respirators approved for dusts TC-21C or NIOSH approved cartridges for Non-oil aerosols,

N95, N99, N100 (42 CFR 84).

Thermal hazards Not applicable.

Use personal protective equipment as required. Handle in accordance with good industrial General hygiene considerations

hygiene and safety practice.

Section: 9 Physical and Chemical Properties

Physical state Solid
Form Powder
Color Green
Odor None

Odor threshold Not applicable

pH 9.6

Melting point/freezing point Not applicable Not applicable Initial boiling point/range Flash point Not applicable Evaporation rate Not applicable Not applicable Flammability (solid,gas) Not applicable Vapor pressure Not applicable Vapor density Relative density Not applicable Negligible Solubility (water) Auto-ignition temperature Not applicable Decomposition temperature Not applicable Viscosity Not applicable Not applicable Explosive limit Explosivity Not applicable

Section: 10 Stability And Reactivity

Reactivity Not available.

Chemical stability Stable under normal temperature conditions and recommended use.

Possibility of hazardous reactions Hazardous polymerization does not occur.

Conditions to avoid None known. Incompatible materials None known.

Hazardous decomposition products No hazardous decomposition products are known.

Section: 11 Toxicological Information

Information on likely routes of exposure

Inhalation May cause irritation to the respiratory system.

Skin contact Contact with skin may cause irritation.

Eye contact May irritate eyes.

Ingestion No adverse effects due to ingestion are expected.

Symptoms related to the physical,

chemical and toxicological characteristics Product dust may be irritating to eyes, skin and respiratory system.

Information on toxicological effects

Acute toxicity May cause respiratory irritation. May be slightly irritating to skin and eyes.

COBALT TITANATE GREEN SPINEL

 COMPONENTS

 Oral
 LD50
 Rat
 > 10000 mg/kg

Skin corrosion/irritation Contact with skin may cause irritation.

Serious eye damage/eye irritation May irritate eyes.

Respiratory or skin sensitization

Respiratory sensitization No data available. Skin sensitization No data available.

Germ cell mutagenicity

No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity Not available.

Reproductive toxicity No data available.

Specific target organ toxicity -

single exposure
Repeated exposure
No data available.
Aspiration hazard
No data available.
Chronic effects
No data available.
No data available.

Further information Repeated overexposure to this compound may cause eye, skin and respiratory tract irritation.

Some compounds of the metals used in the manufacturing of this material have

demonstrated various toxic properties. However, there is no evidence that this material has these toxic characteristics. This product is the result of high temperature calcination of the component substances. Due to its unique crystalline structure the properties of this finished material do not necessarily reflect the properties of the component metals or oxides.

Section: 12 Ecological Information

Ecotoxicity

Not expected to be harmful to aquatic organisms.

Persistence and degradability

The product is not expected to be biodegradable.

Bioaccumulative potential

The product does not contain any substances expected to be bioaccumulating.

Mobility in soilNo data available.Mobility in generalNo data available.Other adverse effectsNone known.

Section: 13 Disposal Considerations

Disposal instructions All wastes must be handled in accordance with local, state and federal regulations.

Hazardous waste code Not regulated.

Waste from residues/unused product Dispose of in accordance with local regulations.

Contaminated packaging Since emptied containers retain product residue, follow label warnings even after container is

emptied.

Section: 14 Transport Information

DOT Not regulated as dangerous goods. IATA Not regulated as dangerous goods. **IMDG** Not regulated as dangerous goods. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not available.

Section: 15 Regulatory Information

IARC has classified cobalt and cobalt compounds as possibly carcinogenic to humans. (Group 2B, Monograph #52).
