Safety Data Sheets

F.O.S. Cassel's Earth Pbk6

Product code: PS-MI0432

Department: french ocre society, dry pigments

C.A.S.:

Section: 1 Identification

Product Name: Milled and purified natural Italian earth

Company: KAMA pigments

7442 St-Hubert Montreal Quebec, H2R 2N3

Phone: 514 272 2173

Email: info@kamapigment.com

Recommended Uses: Colorants (pigments and dyestuffs), inorganic. Pigment for use in, artist's colors, paints,

coloring materials. Do not use for tattoo inks, cosmetics or other medical application.

Section: 2 Hazard Identification

Hazard Classification

HGS Label Elements

Signal Word

GHS Classification

The product does not require a hazard warning label in accordance with GHS criteria.

Hazard statements

No known significant effects or critical hazards.

Precautionary Statements

Do not handle until all safety precautions have been read and understood.

P260 Do not breathe dust.

P281 Use personal protective equipment as required.

P391 Collect spillage.

 $\mbox{P403} + 233$ Store in a well-ventilated place. Keep container tightly closed.

Section: 3 Composition / Information on Ingredients

INGREDIENTS CAS # WT. % Milled and purified natural Italian earth - 100%

Section: 4 First Aid Measures

Skin contact Wash affected area immediately with large amounts of soap and water if irritation

develops or persists, seek medical attention

Eye contact Immediately hold eyelids open and flush with water for at least 15 minutes seek

medical attention

Inhalation Move victim to fresh air if breathing has stopped, perform artificial respiration in all

cases of doubt, or when symptoms persist, seek medical attention

DO NOT induce vomiting. If necessary, seek medical attention.

Inert dust.

Section: 5 Fire Fighting Measures

Extinguishing media

Hazardous combustion products

Inaestion

Notes to physician

Special fire fighting procedures firefighters

Unusual fire / explosion hazards

Water spray, foam, dry powder or carbon dioxide

Not applicable

Should wear protective equipment as required

Assure all equipment is properly grounded as product may cause static discharge, and designed for controlled energy release. Avoid high dust concentrations. Avoid heat, sparks and open flames.

Section: 6 Accidental Release Measures

Leaks and spills Avoid creating dust do not allow product to enter sewers or waterways vaccum/shovel up and

transfer into a drum for reuse or disposal wear protective clothing during cleanup.

Section: 7 Handling And Storage

Handling procedures: Avoid creation of respirable dust. Avoid contact with eyes and skin. Avoid inhalation and ingestion

Wash skin thoroughly after handling and before eating or smoking. Avoid dusting when handling and avoid all possible sources of ignition (spark or flame). Use spark-proof tools and explosion-proof

equipment. Use good industrial hygiene practices in handling this material.

storage needs: store in a cool, dry, well-ventilated area keep container tightly closed.

Section: 8 Exposure Control/Personal Protection

INGREDIENTS ACGIH TLV OSHA PEL NIOSH REL (STEL) (TWA) (STEL) (TWA) (STEL)

dilron oxide trioxide 1309-37-1 - 5 mg/m³ (Fume) - 5 mg/m³ as Fe - (Dust and Smoke)

Ventilation requirements a general ventilation system is recommended

Protective gear

Eyes/Type Wear safety glasses with side shields or goggles

Respiratory/type Use a NIOSH or OSHA approved mask in environments likely to generate dust. determine the

appropriate model by consulting the manufacturer

Gloves/Type Wear protective gloves

Clothing/Type No protective clothing is required Shoes/Type Safety shoes are not required Body/Type No protective clothing is required

Section: 9 Physical and Chemical Properties

physical state : brown powder odor : brown powder

olfactory threshold (ppm): not applicable

ph: 5 - 8 @ concentration 5%

freezing point (°c): not applicable fusion point (°c): > 1000 c boiling point (°c): not applicable flashpoint (°c), method used: not applicable evaporation rate: not applicable flammability: flammable solid upper limit of flammability (% volume): not applicable lower limit of flammability (% volume): not applicable not applicable vapor pressure (mm of ha):

vapor density (air = 1):

relative density:

apparent specific gravity:

not applicable

4.8 at 20 ° c

apparent specific gravity:

300 1000 kg / m3

solubility in water (% by weight) : insoluble coefficient of water / oil distribution : not applicable auto-inflammation temperature (°c) : not applicable

Section: 10 Stability And Reactivity

Hazardous polymerization will not occur Stability stable Incompatibility None known.

Conditions to avoid avoid generating dust. Avoid heat and any source of ignition.

Sensitivity to mechanical impact not sensitive

Sensitivity to static discharge Dust suspended in air in critical proportions and in the presence of an ignition source

may cause explosion.

Hazardous products of decomposition not applicable.

Section: 11 Toxicological Information

INGREDIENTS LC50 LD50

Iron Oxide Not Indicated Oral Rat > 5,000 mg/kg

Dermal Rabbit > 5,000 mg/kg

Iron Oxide, Black Not Indicated Not Indicated

route of entry

Skin contact

May cause skin irritation Avoid skin contact
eye contact

May cause eye irritation Avoid eye contact

inhalation May cause irritation of nose, throat or respiratory tract Avoid inhalation

ingestion Do not ingest
medical conditions affected by exposure signs of over exposure
toxicity effects on animals

Do not ingest
Respiratory disorders
No additional remark
Non-irritating

toxic effects on humans May cause eye irritation May cause skin irritation May cause irritation to respiratory tract. Can

cause pulmonary siderosis

chronic effects on humans

No specific information is available in our database regarding the other chronic toxic effects

of this material for humans

teratogenicity No evidence of teratogen effects
mutagenicity No evidence of mutagenic effects
reproductive effects No evidence of reproductive effects

carcinogenicity No evidence of carcinogenic effects according to ACGIH or IARC

Section: 12 Ecological Information

ecotoxicity data

iron oxide black 48 hr LC0 >1000 mg/L (golden orfe); 24 hr EC0 >1000 mg/L (pseudomonas fluoresvens) Iron (III) Oxide 48 hr LC0 >1000 mg/L (golden orfe); 24 hr EC0 >5000 mg/L (pseudomonas fluorescens).

products of degradation biodegradability

No specific information is available in our database regarding the degradation of this product. Our database contains no additional remark on the biodegradation of this product.

Section: 13 Disposal Considerations

Waste disposal

Dispose in a suitable waste treatment facility in compliance with all federal, provincial and local regulations

Section: 14 Transport Information

TDG classification

Not regulated under tdg (canada)

Section: 15 Regulatory Information

CEPA STATUS
WHMIS CLASSIFICATION

All the ingredients are on the DSL list This is not a WHMIS controlled product

Section: 16 Other Information

Reference Prepared by Manufacturer's material safety data sheet Kama pigments

Disclaimer:

Kama pigments, expressly disclaims all express or implied warranties of merchantability and fitness for a particular purpose, with respect to the product or information provided herein, and shall under no circumstances be liable for incidental or consequential damages.

Do not use ingredient information and/or ingredient percentages in this MSDS as a product specification. For product specification information, refer to a Product Specification Sheet and/or a Certificate of Analysis. These can be obtained from your local Kama pigments Sales Office.

All information appearing herein is based upon data obtained from the manufacturer and/or recognized technical sources.
